1 How a round works

- **Friday:** pairings go up on BCP. Round 1 is random; after that you play someone with a similar record.
- **Friday to Tuesday the week after:** message your opponent in the WhatsApp community, play your game, and report the result on BCP by **21:00 on the Tuesday**.
- **Tuesday to Thursday:** change your list on BCP if you want to, by **21:00 on the Thursday**.
- **Final round:** four weeks over the holidays, with results due by 21:00 on Thursday 14 January.
- Every deadline is 21:00 Dubai time. The calendar on page 2 shows them all.

2 Your army

- **2,000 points**, submitted on BCP as a direct export from the Warhammer 40,000 app.
- Make sure your Leaders and Support are attached and that you have selected a Disposition.
- You can change your list between rounds, but only in the Tuesday-to-Thursday window.
- Proxies and conversions are welcome, as long as you explain clearly to your opponent what each model represents before the game.

3 Games and standings

- Chapter Approved 2026 missions, played using the Warhammer Event Companion.
- Rules, points and FAQs in force at the start of a round apply to that round.
- Battle Ready scores the usual 10 VP.
- Standings: wins, then total VP.

4 If you can't play

- Tell your opponent and the organiser as early as you can.
- If a game isn't played by the results deadline, the organiser decides the result. Usually the player who tried to arrange it takes the win; if neither did, it is a loss for both.

5 The spirit of it

Play by intent, and agree the details as you go: what can see what, the distances that matter, and whether a unit is screening. Settle it together before the dice come out. It's both of you against the rules, not against each other.

Keep your list and dice open, and help newer players find their feet.
